Your practice data belongs to you. Not the cloud.

ProvenTherapy is a secure, offline desktop application built specifically for private practitioners. Manage clients, appointments, session notes, receipts, reminders, and practice finances — all from one clean, professional tool that never uploads your data.

Everything You Need. Nothing You Don't.

Session Notes

Rich, distraction-free clinical note writer with structured formatting.

Client Records

Full client profiles with referrals, status, categories & attachments.

Appointments

Schedule sessions, track attendance, send reminders, print receipts.

Financial Tracking

Log income & expenses. Generate tax-ready reports in one click.

Digital Filing

Attach GP letters, referrals & PDF assessments to client files.

One-Click Backup

Encrypt and save your entire practice to USB or external drive instantly.

Why Therapists Choose ProvenTherapy

- Privacy-first — your data never leaves your machine
- Designed around real clinical workflow, not generic admin software
- No technical knowledge needed — clear, intuitive, and practical
- One annual fee — no monthly bills, no hidden charges
- GDPR-aware design — you stay in full control of all client data
- Created by Dr MG Lazarus, therapist with 30+ years clinical experience

“I finally stopped worrying about where my client data lives.”

Enter your key in the app
and activate

5

Your practice is ready to
go

Dr MG Lazarus MA, MSW, MBA, PhD

Senior Mental Health Social Worker | Catholic Deacon | Author | CORU Registered (SW003920)

With over 30 years of clinical experience, Dr Lazarus built ProvenTherapy because he couldn't find a practice management tool that truly understood the sensitivity of therapy work. This is colleague-to-colleague software — crafted from inside the profession, for the profession.

The price of one CPD. The value of a complete practice system.

Clinical Assessment Tools

17 validated instruments · Elite Scribe exclusive feature

ELITE SCRIBE EXCLUSIVE

ProvenTherapy Elite Scribe includes 17 validated clinical assessment instruments built directly into the app. Select any tool, complete it with your client in-session or send it to them privately ? responses are returned by email and the app calculates the clinical score automatically in a matter of clicks.

How it works

Core Mental Health	Relationship & Family
<ul style="list-style-type: none">● PHQ-9 ? Patient Health Questionnaire (Depression)● GAD-7 ? Generalised Anxiety Disorder Scale● K10 ? Kessler Psychological Distress Scale● WHO-5 ? WHO Well-Being Index● PSS-10 ? Perceived Stress Scale● PHQ-15 ? Somatic Symptom Scale● DASS-21 ? Depression, Anxiety & Stress Scale	<ul style="list-style-type: none">● RAS ? Relationship Assessment Scale● CSI-4 ? Couples Satisfaction Index● Family APGAR ? Family Functioning Screening
Personal Development	Trauma Screening
<ul style="list-style-type: none">● RSES ? Rosenberg Self-Esteem Scale● GSES ? General Self-Efficacy Scale● SWLS ? Satisfaction With Life Scale● BRS ? Brief Resilience Scale	<ul style="list-style-type: none">● ACE ? Adverse Childhood Experiences● PC-PTSD-5 ? Primary Care PTSD Screen● PCL-5 ? PTSD Checklist (DSM-5)

Privacy by Design

The questionnaire sent to clients contains no identifying information. Responses return by email; the therapist inputs them and the app calculates the score automatically ? client identity is protected at every stage.

All 17 assessment tools are unlocked during the 14-day free trial.

Exclusively available to Elite Scribe subscribers after trial.
